Working with the Basic Properties Tab

The *Basic Tab* is one of <u>four tabs</u> that are shown in the *Properties Pane* on the right side of the *SmartBuild* window when you are in *3D Mode, Job Review Mode,* or *Drawings Mode*. (See Figure 1 below.) The *Basic Tab* contains job properties that have been identified as among the highest priority for quick review by our customers.

Figure 1: The four tabs of the *Properties Pane* shown, with the Basic Tab open.

At the very top of the *Basic Tab*, you will find a read-only display of the Total Square Feet and the Price per Square Foot for the open job. Below this information, are the following important fields:

Product System – This field displays the metal type, gauge, and preferred length (a.k.a. "Product System") to be used on your roof. The *Product System* was initially selected by Roofing Passport at the time your model was generated, according to your organization's predefined framing rules. If you would like to change the *Product System* for this job, click on the drop-down arrow to make you selection. Be sure to click on the Save button to keep your changes.
